Harvey McQueen have been supplying both temporary and permanent staff to the engineering sector for the past ten years.

Our clients include one of the **world's largest manufacturers of offshore metalwork** products, with offices in Europe and North America. We also work closely with multiple branches of a nationwide engineering supply chain business, who rely on Harvey McQueen for all their staffing needs.

Harvey McQueen have the relationships and flexibility in the industry to quickly fill any vacancy that you may have, or to work in partnership to solve all of your recruitment needs.

What our clients say:

"Fantastic service, attention to detail (meaning that I can forget about staffing issues!) We would highly recommend Harvey McQueen and they are a true asset to any growing or established company"

Director, Bolton Manufacturing Company

We have used a number of different recruitment agencies over the years and have found Harvey McQueen to be our preferred supplier. They visit frequently and have a great understanding of our business. Harvey McQueen have excelled in the quality of the candidates and level of service.

Director, Worldwide Manufacturing Group
